David,

Region 3 is concurring with your changes. Please advise if you need something more formal than this.

Stuart and I have reviewed the changes to Region 5's plan and concur. Please vote Yea or Nay to recommend concurrence to the Region 3 Chair.

Thanks,

John

Please review the attachments for Region 5's changes.

Sorry for the short turnaround. Please respond by early Wednesday if your schedules permit.

Thanks,

John

John,

could you provide a quick concurrence from your committee, by [next Wednesday](#)? If time does not allow, then I can review and provide this with your preliminary review.

Subject Region 5 allotment changes

Mark - Attached is a proposed change to the Region 5 700 MHz allotments. There is a change to an allotment for Imperial County that We would like your concurrence on. There added allotments for [Riverside County](#) for "fill-in" sites. We define those as allotments that are not useable in all parts of the agencies coverage area and must be engineered in on a per site basis. None

of the proposed sites are within 70 miles of the AZ border and if that were to change of course we would seek your concurrence. Please also give concurrence on those changes also.

Riverside is under some tight project schedules so I'm trying to expedite this change through the FCC approval process. I have filed the change with the [FCC](#) and need to amend the request with your concurrence ASAP.
